CAMELBAK®

AN IDEA BORN FROM THE MOST BASIC HUMAN NEED

CamelBak was established in 1989 after the company's founder made a prototype using an IV bag of water and a tube sock, inventing the first hands free hydration solution designed especially for cyclists needs. A lot has changed since then, except Camelbak's thirst for innovation and quality. Today CamelBak is a household name and market leader in the hydration category with a wide range of drinkware products.

ANYWHERE IT MAY TAKE YOU

For almost 40 years, Case Logic has developed and designed great bags and cases for handheld electronic devices. Beginning with just two audiocassette storage cases, they helped to create and expand the growing field of audio storage. Music may have changed, technology has evolved, and the word “mobile” has taken on a whole new meaning.

With products such as laptop bags, daypacks for school, university and work, tablet cases, laptop sleeves and camera bags, they balance performance and style for a mobile life in an urban environment.

CASE LOGIC INVIGO

The Case Logic Invigo line is designed for the young professional.

Nearly every element of the Case Logic Invigo Collection has been built with recycled materials, giving new life to old discarded plastics without compromising style. All of the bags are made of 100% recycled exterior fabric, interior linings and mesh, and packaging as well as partially recycled trims.
